

PRODUCT DATA SHEET

FOR CHALLENGER MT 700

Trusted Parts Dealer Since 1873

Challenger MT 700 /

REFERENCE	WIDTH	LENGHT	TREAD	PITCH	TREAD HEIGHT	TREAD WIDTH	GUIDE LUGS	PLY	THICKNESS
30"x6"x59	30"	354"	118	6"	2.6"	2"	59	4	1.5"

The tractors produced by AGCO under the Challenger name share a common feature : **the use of friction-drive agricultural tracks.**

From the early Challenger 35-95 models (CAT & Claas) to the MT700 and MT800, these high powered machines benefit from **long tracks** that provide both **flotation and traction**. To withstand their power, the **treads and drive lugs** on our tracks are **simultaneously vulcanised**, giving them **greater resistance to tearing**.

What's in addition is that we manufacture these tracks with a **short 6-inch pitch**, which means they have **more tread lugs** than most competing tracks. This considerably improves **wear resistance and road performance**.

Vulcan Agri tracks are perfectly suited to Challenger tractors, allowing you to take full advantage of your machine's performance.

✓ Fast delivery within 24 hours
Delivery by tracked priority courier throughout Europe or by charter for export outside the EU.

✓ Complete range of agricultural tracks
A range of tracks from 18" to 36" wide for all makes of tracked agricultural machinery.

✓ Adaptability of parts and guaranteed assembly
Our experts will determine the best dimensions for your machine and guarantee that the parts will fit.

✓ Spare parts for undercarriage
A guaranteed, cost-effective range of rollers and wheels for all major makes of tractors and harvesters.

Strong Cables

The track tensile strength is ensured by a full layer of **5.4mm, seamless tension cables**. In addition, the track's core is reinforced with as much as **four steel cable layers** placed at special angles to maximise the core stiffness, making our tracks the **best choice for durability and flexibility**.

One Step Vulcan

Vulcanisation in one step of track core, guide lugs and tread patterns reinforce solidity and prevent tread pull off. All track parts are strongly vulcanised and bonded together. Low wearability rubber compound offers extended lifetime.

Engineered Quality

New self-cleaning tread bars improve traction whilst offering no vibrations. The tracks are designed to last and come with up to **2 years warranty** on Friction and Positive Drive Machines.

Trusted Dealer

Leach Lewis supply the industry only with high quality products at extremely competitive prices. We have a long tradition of servicing and maintaining high levels of customer satisfaction.

Range of tracks from **18" to 36"** wide
